CLARK-LINDSEY *Crossroads*

Volume 31, No. 1
Dec. 2007 – Feb. 2008

Welcome

From Cliff Ingersoll,
President & Chief Executive Officer

Welcome to our inaugural issue of *Clark-Lindsey Crossroads*. This newsletter is intended to keep our friends informed about happenings at the Village. Whether you're a future resident on our waiting list, a business associate, or a friend who wants to keep in touch with the Village, we think you'll find this newsletter informative.

In this issue, we debut our newest apartment floor plan with modern amenities and spectacular design available in each apartment home. We also provide an update on two exciting projects under development; a \$2 million corridor renovation effort that began in October; and, a ground-breaking project in partnership with the University of Illinois called *New AGE* – an innovative approach to therapeutic recreational activities within attractive greenscapes.

Our publication schedule for *Crossroads* will be quarterly, and we plan to provide an electronic version available with our next issue. If you prefer to receive an electronic version of our newsletter rather than paper, please let us know by emailing rwilcox@clark-lindsey.com. Put "Crossroads" in the subject line. **We hope you enjoy Crossroads.**

What's New

We're proud to provide an update on two significant projects at Clark-Lindsey.

First, the corridor project is now underway. The \$2 million renovation will brighten and update the corridors in every apartment wing and on every floor.

The corridors will boast warm, inviting earth tones while Oak wood and Corian accents will add to the sophisticated home-like feel. Each of the three floors will feature a unique color scheme. The intimate social coves located throughout the corridors will see new furnishings. Along the way, captivating works of art will be stunningly showcased.

The corridor is also designed to serve as the Village's very own art gallery. It will showcase artwork from both Village residents and visiting artists from the Champaign-Urbana area. It is an exclusive feature residents enjoy at Clark-Lindsey.

Another exciting project on the drawing board is *New AGE* (Active Green Environment). It is a pilot project and a partnership with the University of Illinois. The concept focuses on improving the health and quality of life of older adults living in a retirement community. It provides a green alternative to indoor health clubs and physical therapy settings. Clark-Lindsey is partnering with the University of Illinois as **one of only two sites in the nation** selected to initiate this *New AGE* concept. We hope to break ground on this exciting outdoor project in the spring of 2008.

A Lifestyle of Living

Introducing the Wilshire

Experience a lifestyle of living with The Wilshire – Featuring beautiful wood flooring, custom mosaic tile, modern appliances and an open floor plan.

Our newest apartment home provides a sampling of the many upgrade features now available to personalize your living area. Those amenities include tile flooring, custom mosaic tile backsplash, engineered wood flooring, synthetic granite-style countertops and modern stainless steel appliances. New ceramic tile in the bathrooms add beauty as do the cultured marble countertops in the guest bathroom and Corian

countertops in the Master Bath. A beautiful walk-in shower with seat surrounded by tile plus generous cabinet storage adds to both the beauty and practicality of the master bath.

In addition to a living room and dining room, the Wilshire features a cozy den that functions perfectly as a study or reading room.

Special touches like crown molding, chair rails, window and door casings and beautifully crafted cabinetry throughout – including a kitchen pantry cabinet – gives you the luxury and comfort you desire in a home.

Sensational lighting that includes pendants over the breakfast bar, under cabinet lights and upgraded ceiling fixtures create a unique look throughout the home.

You are invited to tour our variety of apartment home floor plans. Please call us at **217-344-2144**, or email **Ron Wilcox** at rwilcox@clark-lindsey.com or **Penny Porter** at pporter@clark-lindsey.com.
